

General information

Distributed European Doctoral School on Metamaterials

8th Edition, October 25–26, 2007, Rome, Italy

Organised by Metamorphose Network of Excellence,

Metamorphose Virtual Institute, and the University of Roma Tre

The European Doctoral Programmes on Metamaterials offer courses within the geographically Distributed European Doctoral School on Metamaterials. A Consortium initiated by the members of the European Network of Excellence METAMORPHOSE (and open to any European academic institution) has been established to operate and support the European Doctoral Degree Programmes on Metamaterials. The Consortium also regulates the rules of student exchange, joint research, credit transfers, etc. between participating institutions.
